

Week Planner

A planner designed for real life.

Flexible timelines, adaptive scheduling, and a built-in compensation system that rewards progress—not perfection.

Flexible planning for real life

Flutter • Material 3 • Android

Week Planner

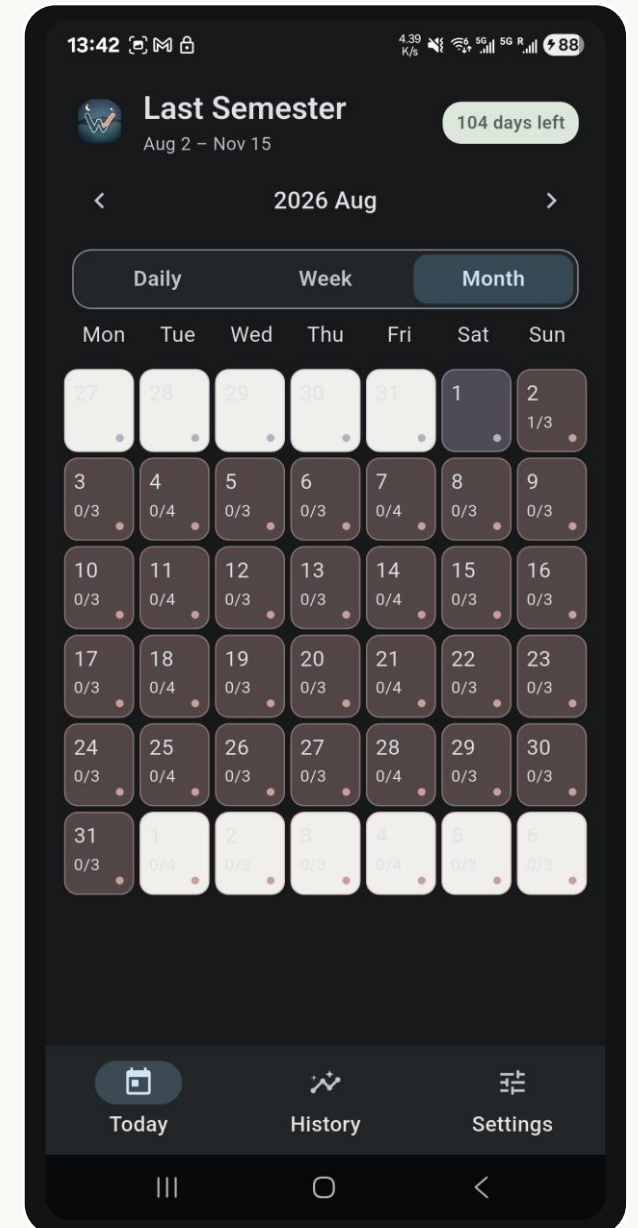

THE PROBLEM:

Perfect schedules break on imperfect days.

Traditional planners treat a missed task as a permanent failure.

- Every task is locked to an exact time.
- One missed task disrupts the whole schedule.
- One bad day can turn into giving up.

Real life doesn't work that way.

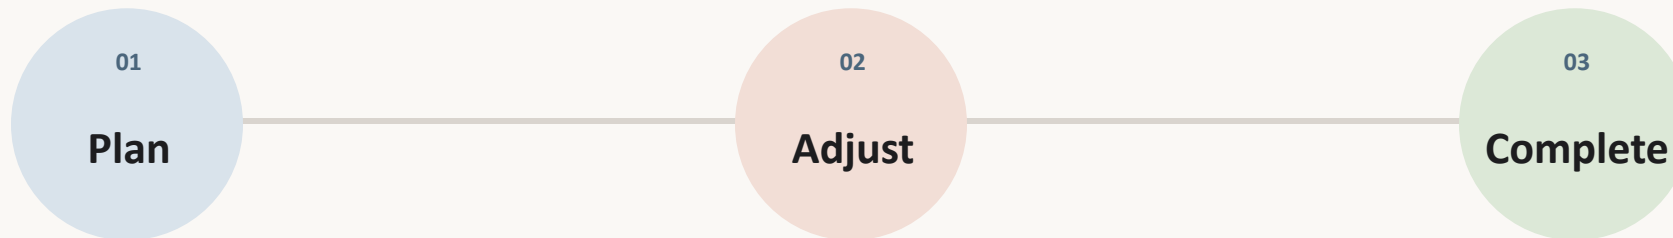

Week Planner

OUR PHILOSOPHY:

Life changes. Your plan should too.

Week Planner is built for continuous progress — not a perfect streak.

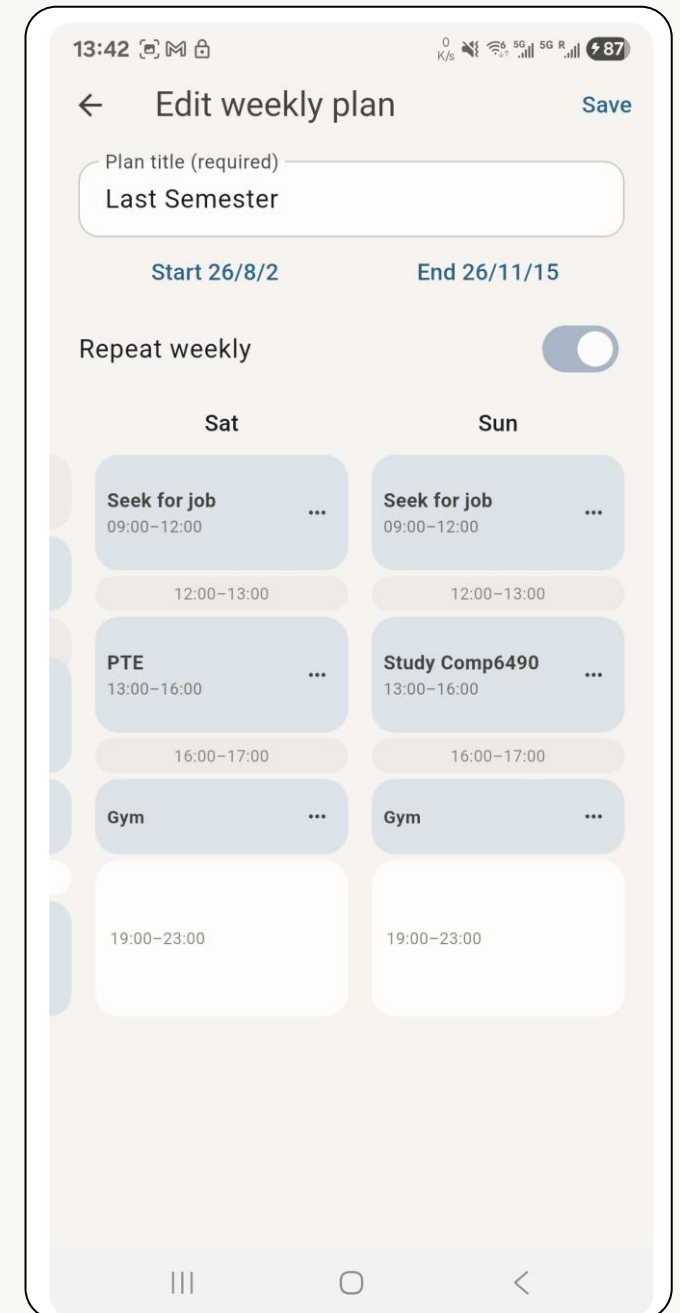

Week Planner

FLEXIBLE WEEKLY PLANNING

Plan in flexible weekly blocks.

Users shape the week around priorities, then rearrange it as real life unfolds.

- Visual weekly structure.
- Easy to rearrange.
- Repeatable routines.
- Room for gaps and recovery.

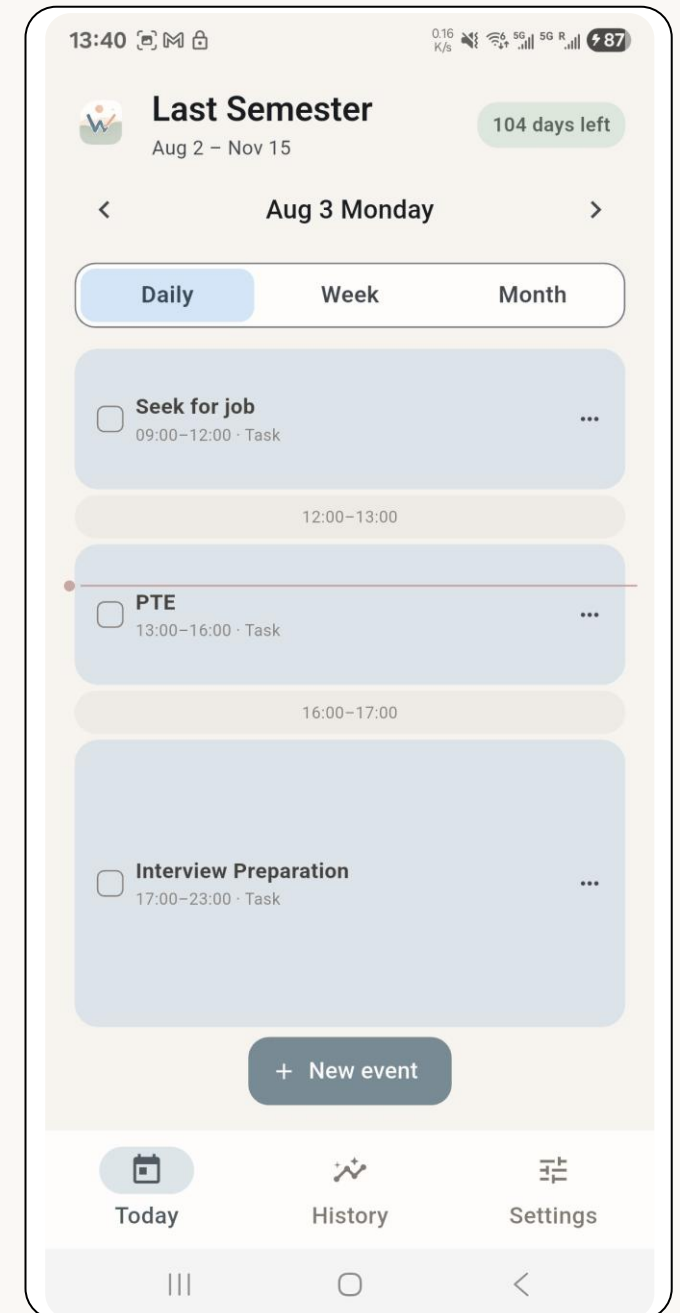

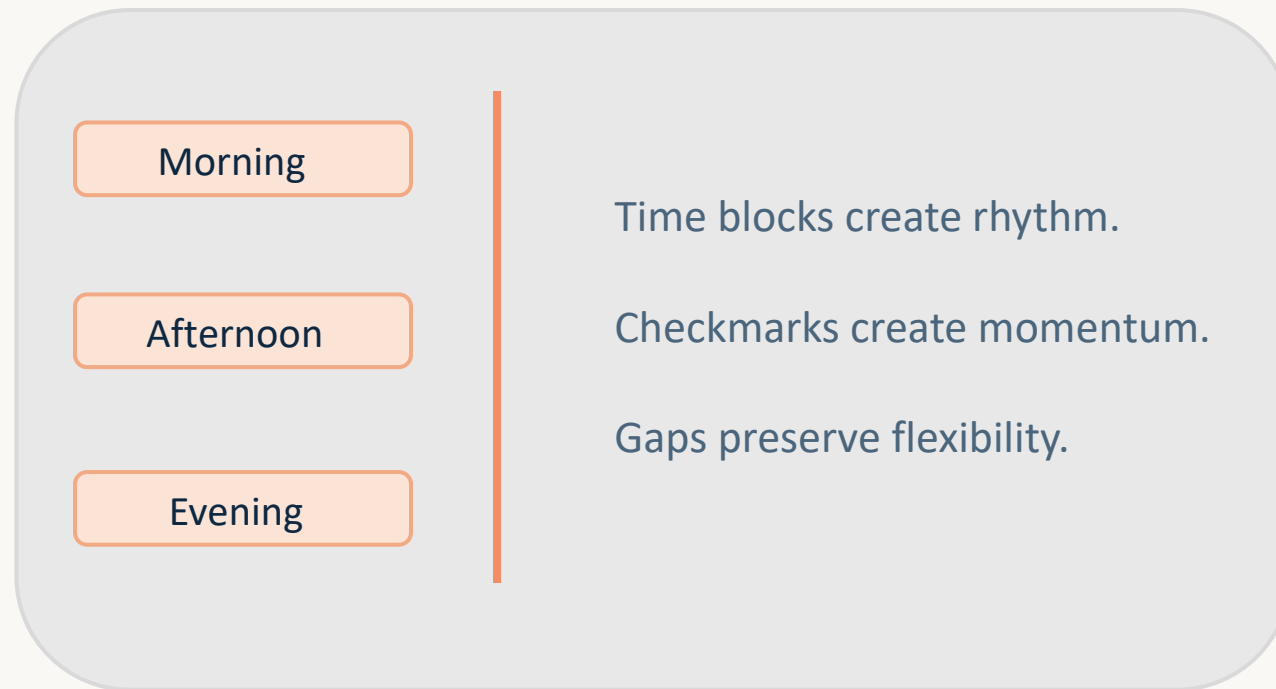

Week Planner

DAILY EXECUTION

A day feels structured—without feeling rigid.

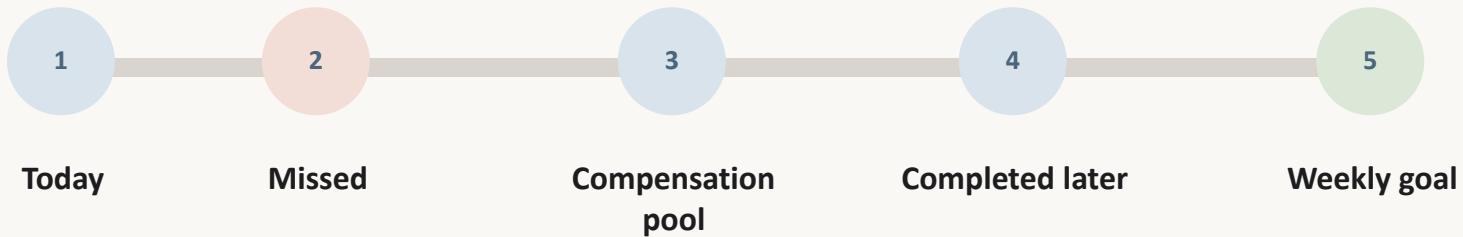

Week Planner

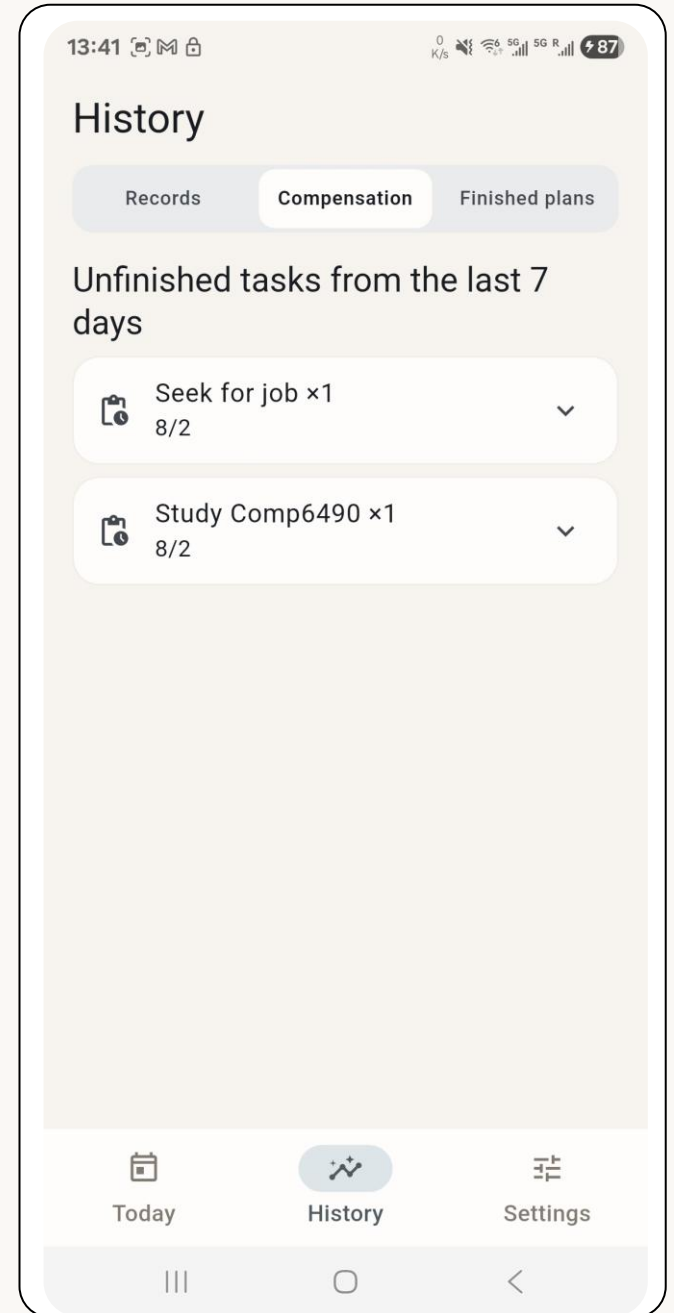

BUILT-IN FLEXIBILITY

Miss today. Catch up tomorrow.

An unfinished task stays alive for seven days—so effort is delayed, not erased.

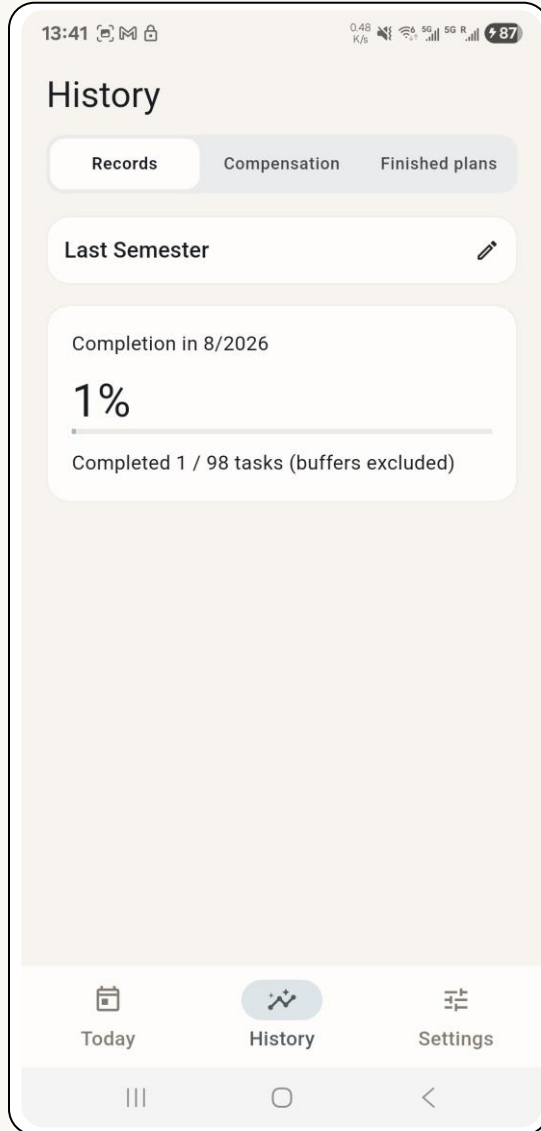

A missed task is not a failed task.

Week Planner

PROGRESS, NOT PERFECTION

Small wins stay visible—and compound over time.

1%

A missed task isn't the end of your plan.

It's simply waiting for another chance within the next seven days.

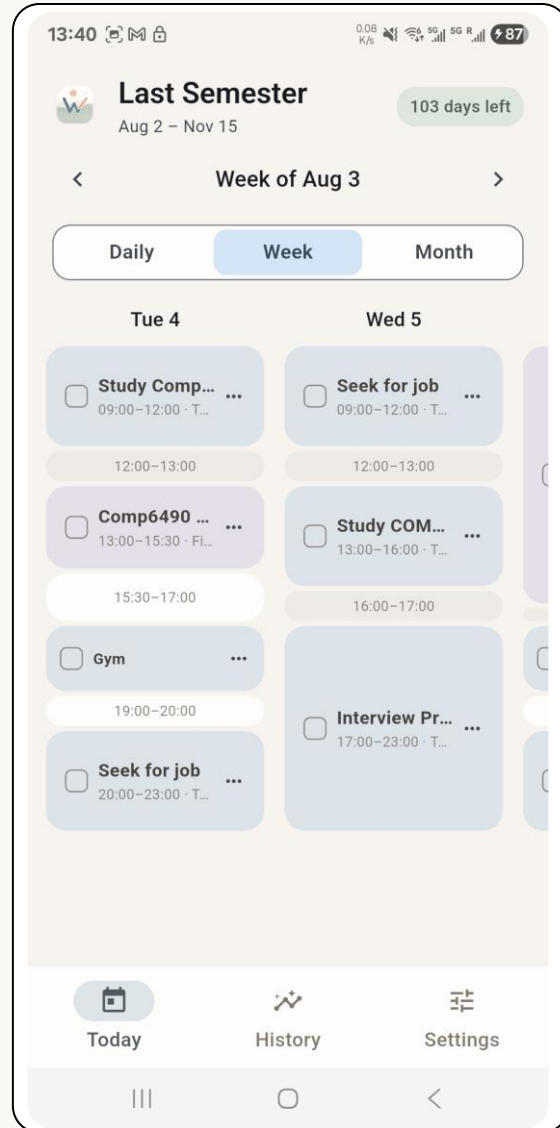

Completion records • Finished plans • Long-term insight

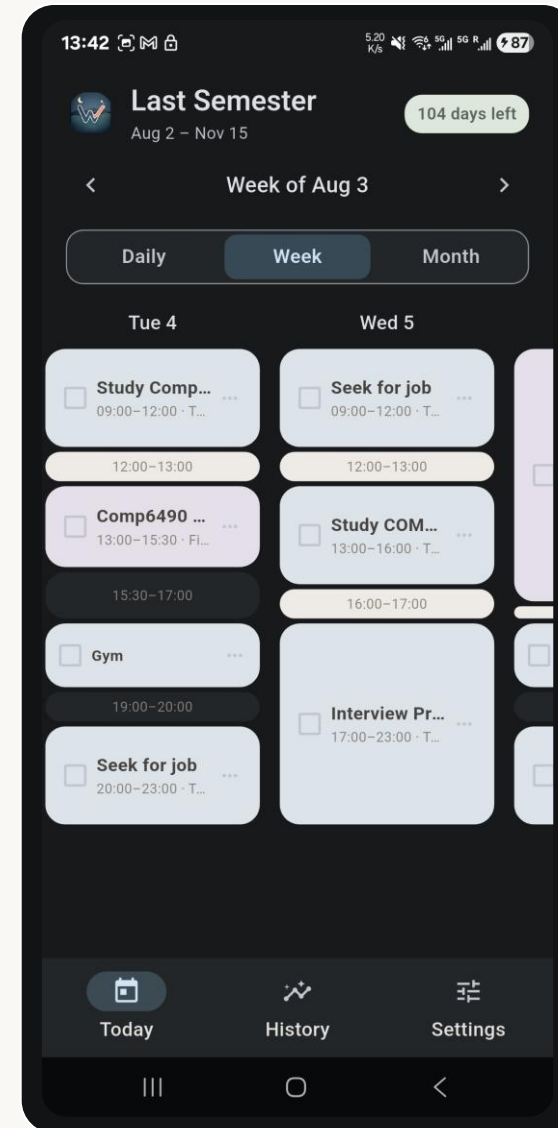

Week Planner

WHY WEEK PLANNER IS DIFFERENT

The unit of success is the week—not a perfect day.

TRADITIONAL PLANNER

Fixed schedule

Missed tasks break the plan

Daily focus

Punishes inconsistency

Rigid

WEEKPLANNER

- Flexible timeline
- Tasks can be compensated
- Weekly progress
- Encourages consistency
- Adaptive

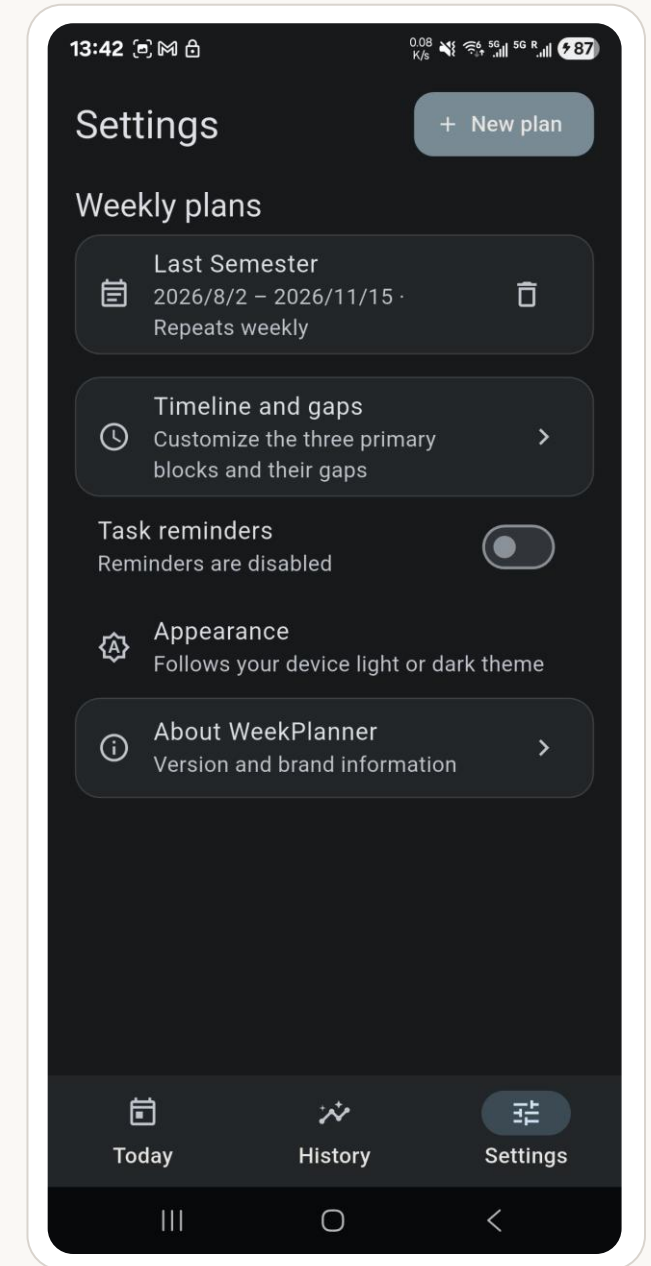

Week Planner

BUILT WITH FLUTTER

Built for responsive planning.

Flutter	Cross-platform UI
Material 3	Adaptive visual system
Local database	Offline-first records
State management	Predictable updates
Responsive layout	Phone-size resilience
System themes	Automatic light and dark

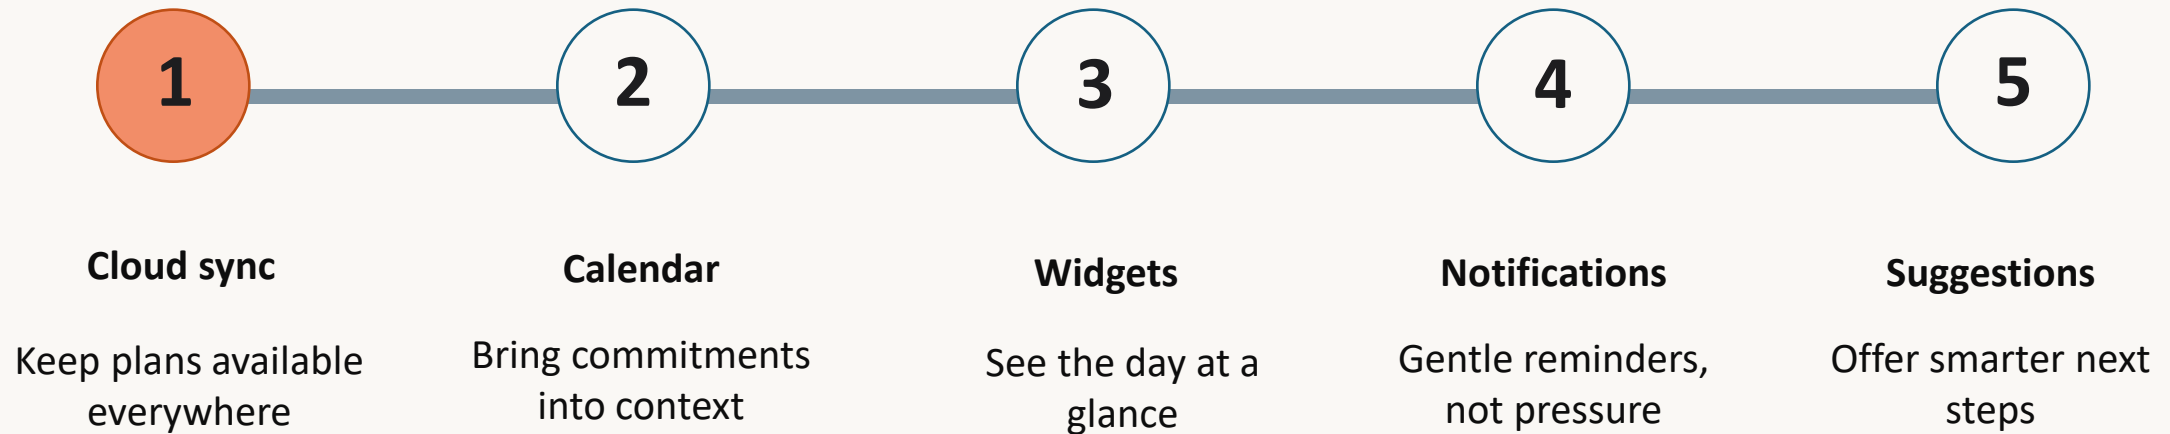

Week Planner

ROADMAP

Make flexible planning more connected—and more helpful.

UPCOMING...

Plan flexibly.
Finish confidently.

WeekPlanner

Plans should adapt to life—not the other way around.
